COME JOIN US FOR A FUN AND AMAZING SUMMER CAMP EXPERIENCE
FOR STUDENTS AGES 3 TO 22.

CAMP REEC

Our programs start on
Monday June 16th
and run through
September 5th.

Overview of Summer Camp Program

Come join us for a fun and amazing summer camp experience for students ages 3 to 22. Our summer programs are designed based on the principles of Applied Behavioral Analysis. We utilize a variety of researched based teaching techniques to uniquely craft and design a structured program to meet each individual's needs.

Our staff will design an individualized program plan for the summer experience. The plan can incorporate all aspects of educational and social development. All of our teaching is conducted in a systematic method with a significant focus on embedding academic instruction within play activities and the natural environment, as well as discrete trial teaching as deemed appropriate. We focus on promoting appropriate social interactions, increasing functional communication skills and developing increased play and leisure skills. Our summer will be designed around weekly themes. Staff will develop theme based activities which will help facilitate the development and teaching of each student's individually designed goals. All goals are tracked through on-going data collection and regular progress monitoring.

All of activities are uniquely addressed through our specially designed center. The center offers a large indoor playground, a multi-sensory art room, kitchen and a large pretend play room. Additionally, teens and young adults have their own space in the Teen Center. We also have access to large sports fields and an outdoor playground.

We provide a low student to staff ratio to ensure for the most effective of services. Our staff are trained behavioral therapists and all programming is overseen by Board Certified Behavior Analysts.
